

Medical Assisting Education Review Board Outcome Disclosure

The satisfaction outcomes for the Medical Assistant programs are presented in accordance with Policy 205 of Commission on Accreditation of Allied Health Education Programs (CAAHEP). Each programmatically accredited Medical Assistant program is required to publicly publish at minimum one outcome from the previous year's Annual Report as submitted to the Medical Assisting Education Review Board (MAERB).

Keystone Technical Institute's disclosed outcomes must be the five-year weighted average or less if the program is in its initial accreditation. KTI was accredited in 2012; therefore, our outcomes disclosure for 2015 Annual Report are a 3-year weighted average.
